Dear Mr. Laya

In response to your laboratory's accreditation per the requirements of the Automotive Laboratory Recognition Program (AEMCLRP) in addition to submittal and acceptance of your Test Facility Report, Ford Motor Company (FMC) officially acknowledges the Elite (Downers Grove) EMC test laboratory as a "recognized" laboratory for performing all component EMC test methods delineated in FMC engineering specification ES-XW7T-1A278-XX.

Pursuant to you laboratory's recognition, FMC agrees to accept EMC component test data from the Elite Downers Grove facility when testing is performed in accordance with a Ford approved EMC Test Plan. Note that continued recognition of your EMC laboratory is predicated on maintaining accreditation per the requirements delineated in AEMCLRP.

If you have any questions, you may contact me at 313-322-3150.

Congratulations,

R. Keith Frazier
